

## Bachelor of Science

### Computer Networking

This program gives students the knowledge and tools necessary to be successful in the field of computer networking. Courses cover a range of topics, including hardware, webpage design, network operating systems and system administration. Students will spend their last year at Lake Superior State University's main campus in Sault St. Marie, Michigan.

Through our International University College Division, two of the courses required for this program are taught at Sault College in Sault Ste. Marie, Ontario. This collaboration between LSSU and Sault College exposes students to a broader range of hardware, software and networking topics.

### Program Highlights

- Courses offer hands on experience in Linux, Novell and Windows platforms
- Students gain networking and operating systems installations experience
- Personalized advising and assistance
- Experienced and caring faculty

It is the policy of Lake Superior State University that no person shall be discriminated against, excluded from participation in, denied the benefits of, or otherwise be subjected to discrimination in employment, or in any program or activity for which the University is responsible on the basis of race, color, national origin or ancestry, gender, age, disability, religion, height, weight, sexual preference, marital status or veteran status.

## Our Student Service Promise
