

Bachelor of Science

Engineering Management

The bachelor of science in engineering management has a focus in general business, accounting, management, marketing, economics and automated manufacturing. This program will give an opportunity for people with a technical associate's degree to obtain a bachelor's degree. The BS in engineering management will not only expand the technical education of the individual, but also provide business skills that could qualify for advancement in industry.

Students may earn 96 semester credits from Bay College or other institutions and must earn a minimum of 32 semester credits from Lake Superior State University. Courses will be offered throughout the calendar year in an evening/weekend format. Courses may also be delivered online, tape delayed DVD or via interactive television. This degree program is designed to meet the needs of employed adult students.

Program Highlights

- Automated manufacturing emphasis
- Technology-based
- Geared toward industry
- Designed for working adults, part time basis
- Offered evenings and distance format
- Personalized advising and assistance
- Experienced and caring faculty
