

Schedule 7d: Curriculum

Innocademy Allegan Campus curriculum is rooted in the Common Core State Standards for English Language Arts and Math that have been adopted by 42 states. Grade level guides can be found at <http://www.corestandards.org/>.

The following chart provides an at-a-glance view of the chosen curricular resources for core content instruction:

Subject	Curriculum	Assessments	To learn more, click...
Reading, Writing, & Phonics	Amplify ELA & CKLA Grades K-8	*Fountas & Pinnell running records, K-5 * Dibels * NWEA MAPS K-8 * PSAT 8 *M-STEP 3-7	https://amplify.com/

ELA Curriculum

<https://amplify.com/>

Amplify Core Knowledge Language Arts (CKLA) is the leading early literacy curriculum grounded in the Science of Reading. By combining knowledge-building and research-based foundational skills, our instruction guides educators in developing strong readers, writers, and thinkers.

With a powerful online platform and a parallel Spanish language arts curriculum, Amplify CKLA provides a comprehensive solution for PreK-5 educators and students. Amplify ELA is a blended English language arts curriculum designed specifically to support students in grades 6-8 and prepare them for high school and beyond. With Amplify ELA, students learn to tackle any complex text and make observations, grapple with interesting ideas, and find relevance for themselves.

Math Curriculum

<https://www.savvas.com/index.cfm?locator=PS2s6r>

Investigations 3 is a K-5 mathematics curriculum that supports students in making sense of mathematical ideas and supports teachers in making sense of both mathematics content and student thinking.

<https://www.savvas.com/index.cfm?locator=PS1yJe>

Connected Mathematics 3, or CMP3, is an inquiry-based mathematics program for Grades 6-8. It helps students actively focus on math problem solving, reasoning and proof, communication, representation, and connections. The fundamental features of the CMP program reflect the authors’ core beliefs about essential features of effective teaching and learning of mathematics. These features include, a focus on big ideas and the connections among them, teaching through student-centered exploration of mathematically rich problems, and using continuous assessment to inform instruction.

Science Curriculum

<https://mysteryscience.com/%5C>

Mystery Science is an innovative, standards-aligned, hands-on curriculum that teaches children how to think like scientists. The phenomena-driven instruction helps studnets to better understand and communicate about the world around them through writing, discussion, and exploration.

<https://www.plt.org/>

We've developed a sustained partnership with the Outdoor Discovery Center Education Network that supports us in connecting deeper classroom learning with people, land, and nature. This allows students to adventure into nature at the Outdoor Discovery Center and other locations in the area.

Social Studies

<https://oaklandk12-public.rubiconatlas.org/Atlas/Public/View/Default>

<https://www.teachtci.com/social-studies/middle-school-social-studies/>

Grades 3 through 8 are supplementing TCI Social Studies programs with the Michigan Citizenship Collaborative Curriculum with engaging and interactive simulations that focus on a big question and provide opportunities for collaborative discovery and multiple perspectives. Elementary students explore the fundamentals of the world – its communities, peoples, and cultures – with hands-on, engaging lessons. Middle school students are provided the chance to think critically, challenge assumptions, and understand the complexities of societal structures.
